

**Administration of Medicines Policy**  
**Scoil Mhuire, Shankill, Co. Dublin**

**Rationale:**

The policy as outlined was put in place to;

- Clarify areas of responsibility
- To give clear guidance about situations where it is not appropriate to administer medicines
- To indicate the limitations to any requirements which may be notified to teachers and school staff
- To outline procedures to deal with a pupil with a nut allergy in our school
- Safeguard school staff that are willing to administer medication
- Protect against possible litigation.

**Relationship to School Ethos:**

The school promotes positive home-school contacts, not only in relation to the welfare of children, but in relation to all aspects of school life. This policy is in keeping with the school ethos through the provision of a safe, secure and caring school environment and the furthering of positive home-school links.

**Aims of this Policy:**

The aims and objectives of the policy can be summarised as follows;

- Minimise health risks to children and staff on the school premises
- Fulfill the duty of the BoM in relation to Health and Safety requirements
- Provide a framework within which medicines may be administered in cases of emergency or in instances where regularised administration has been agreed with parents/guardians

**In – School Procedures:**

Parents are required to fill in on their application form any health/psychological problems we (as a school) should know about regarding their child.

- Prescribed medicines will only be administered after parents of the pupil concerned have written to the principal requesting the Board to authorise a member of the teaching staff to do so. Under no circumstance will non-prescribed medicines be either stored or administered in the school. The Board will seek indemnity from parents in respect of any liability arising from the administration of medicines.
- The school generally advocates the self administration (e.g. inhalers) of medicine under the supervision of a responsible adult, exercising the standard of care of a prudent parent. Parents are responsible for the provision of medication and notification of a change of dosage.
- Teachers have a professional duty to safeguard the health and safety of pupils, both when they are authorised to be on the school premises and when they are engaged in authorised school activities elsewhere.
- The Board of Management requests parents to ensure that teachers be made aware in writing of any medical condition suffered by any child in their class.
- This does not imply a duty upon teachers personally to undertake the administration of medicines or drugs.

### **Long Term Health Problems**

Where there are children with long-term health problems in school, proper and clearly understood arrangements for the administration of medicines must be made with the Board of Management. This is the responsibility of the parents/guardians. It would include measures such as self administration, administration under parental supervision or administration by school staff.

### **Life Threatening Condition**

Where children are suffering from life threatening conditions, parents/guardians must clearly outline, in writing, what should be done in a particular emergency situation, with particular reference to what may be a risk to the child (Appendix 3).

If emergency medication is necessary, arrangements must be made with the Board of Management. A letter of indemnity must be signed by the parents in respect of any liability that may arise regarding the administration of medication.

### **Guidelines for the Administration of Medicines**

1. The parents/guardians of the pupil with special medical needs must inform the Board of Management in writing of the condition, giving all the necessary details of the condition. The request must also contain written instruction of the procedure to be followed in administering the medicine. (Appendix 1, 2 or 3)
2. Parents/guardians must write requesting the Board of Management to authorise the administration of the medicine in school.
3. Where specific authorisation has been given by the Board of Management for the administration of medicine, the medicines must be brought to school by the parent/guardian/designated adult.
4. A written record of the date and time of administration must be kept by the person administering it. (Appendix 4)
5. Parents/Guardians are responsible for ensuring that emergency medicine is supplied to the school and replenished when necessary.
6. Emergency medicine must have exact details of how it is to be administered.
7. The BoM must inform the school's insurers accordingly.
8. Parents are further required to indemnify the Board of Management and members of the staff in respect of any liability that may arise regarding the administration of prescribed medicines in school

All correspondence related to the above are kept in the school.

### **Medicines**

- Non-prescribed medicines will neither be stored nor administered to pupils in school
- Teachers/SNAs in the school will only administer prescribed medicine when arrangements have been put in place as outlined above.
- Arrangements for the storage of certain emergency medicines, which must be readily accessible at all times, must be made with the Principal
- A teacher/SNA must not administer any medicine without the specific authorisation of the Board of Management
- The prescribed medicine must be self-administered if possible, under the supervision of an authorised Teacher/SNA if not the parent
- No teacher/SNA can be required to administer medicine or drugs to a pupil
- In an emergency situation, qualified medical assistance will be secured at the earliest opportunity and the parents contacted
- It is not recommended that children keep medicine in bags, coats, etc.
- Where possible, the parents should arrange for the administration of prescribed medicines outside of school hours.

Scoil Mhuire is a NUT FREE ZONE.

This means that nuts in any form (listed below) are banned from the school.

- ALL NUTS~ HAZELNUTS, PEANUTS, CASHEWS, WALNUTS, PEACANS, ALMONDS, TREE NUTS
- NUT SPREADS~PEANUT BUTTER, CHOCOLATE SPREADS (e.g., Nutella, Panda etc) CEREAL BARS
- CHOCOLATE BARS~ ALL KINDER PRODUCTS, SNICKERS, TOPIC BARS, NUT TOFFEE, PEANUT/HAZELNUT COOKIES

**In the event the pupil comes in contact with peanuts**

An Epi-pen is stored in child's classroom. The container is labelled and the expiry date marked. Before or immediately after Pen has been administered, an ambulance must be called.

**Indicators of shock include**

Symptoms of shock can include, wheezing, severe difficulty breathing and gastrointestinal symptoms such as abdominal pain, cramps, vomiting and diarrhoea.

**Emergencies:**

In the event of an emergency, teachers should do no more than is necessary and appropriate to relieve extreme distress or prevent further and otherwise irreparable harm. Qualified medical treatment should be secured in emergencies at the earliest opportunity.

Where no qualified medical treatment is available, and circumstances warrant immediate medical attention parents will be contacted immediately. If parents/guardians cannot be contacted then the emergency contacts will be called. In extreme circumstances designated staff members may take a child into Accident and Emergency without delay.

In addition, parents must ensure that teachers are made aware in writing of any medical condition which their child is suffering from. For example children who are epileptics, diabetics etc. may have a seizure at any time and teachers must be made aware of symptoms in order to ensure that treatment may be given by appropriate persons.

Written details are required from the parents/guardians outlining the child's personal details, name of medicine, prescribed dosage, whether the child is capable of self-administration and the circumstances under which the medicine is to be given. Parents should also outline clearly proper procedures for children who require medicine for life threatening conditions.

The school maintains an up to date register of contact details of all parents/guardians including emergency numbers. This is updated in September of each new school year and each term.

**First Aid Boxes:**

A full medical kit is taken when children are engaged in out of school activities such as tours, football/hurling games and athletic activities.

A first aid box is kept in each individual classroom containing wipes, plasters, savlon, hand sanitiser, disposable gloves, sterile eye wash, nappy bags and scissors.

**General Recommendations:**

We recommend that any child who shows signs of illness should be kept at home. Requests from parents to keep their children in at lunch break are not encouraged. A child too sick to play with peers should not be in school.

**Roles and Responsibilities:**

The BoM has overall responsibility for the implementation and monitoring of the school policy on Administration of Medicines. The Principal is the day to day manager of routines contained in the policy with the assistance of all staff members. The maintenance and replenishment of First Aid Boxes is one element of a post of responsibility in the school.

**Success Criteria:**

The effectiveness of the school policy in its present form is measured by the following criteria;

- Compliance with Health and Safety legislation.
- Maintaining a safe and caring environment for children.
- Positive feedback from parents/teachers.
- Ensuring the primary responsibility for administering medicine remains with parents/guardians.

**Ratification and Review:**

This policy was ratified by the BoM on the 2/12/24 . It will be reviewed in the event of incidents or on the enrolment of child/children with significant medical conditions, but no later than May 2026.

---

I/We request that the Board of Management authorise the taking of Prescription Medicine during the school day as it is absolutely necessary for the continued well being of my/our child. I/We understand that the school has no facilities for the safe storage of prescription medicines and that the prescribed amounts be brought in daily. I/We understand that we must inform the school/Teacher of any changes of medicine/dose in writing and that we must inform the Teacher each year of the prescription/medical condition. I/We understand that no school personnel have any medical training and we indemnify the Board from any liability that may arise from the administration of the medication.
